**POPUS** was born from an interconnected passion for **architecture, design and decoration**, from a love of colour, prints, materials and patterns that dates back years.

## Yannick Gicquel

Yannick has followed a singular path in life. After many trips, he decided to launch a **furniture and decor house** in 1992. In 1998, meeting Fanny gave him the chance to take a new direction in his work. Together, they added a **contemporary** spirit to their work and started to invite designers to collaborate with them in order to create collections that were **strong in personality**. They reached new levels of success all over the world, especially in the United Kingdom, where they later settled to raise their family. From this adventure onwards, Yannick has never ceased to develop his **expertise** or to refine his **incredible eye**.

## Fanny Gicquel

At one time a press attache in Paris, with a **passion for the prints and bright colours of the 60s and 70s**, her story changed when she crossed paths with the man who was to revolutionise her professional horizons. Fanny joined Yannick in his work and together they designed collections, moving to Megeve in the French Alps together in 2010. Here they launched a true personal project, a new venture with Refuge, an architect's studio that revamps the landscape of mountain chalets and that, above all else, cherishes **warmth and atmosphere in a home**.

This project was followed by great success that came in the form of a small capsule collection exhibited at **Maison et Objet**.

For a long time, Fanny has spent considerable periods in London, a city from which she says she draws her energy and an inspiration that is so cosmopolitan. Now, still together, and now living in the English capital, Yannick and Fanny turn to a new chapter in their creative story, returning to their first passion of **furniture design** in order to give birth to **POPUS Editions**.

## Popus, at the service of decoration professionals !

## Our know-how

With a wealth of experience in publishing, and **expertise in the world of furniture and decoration** that dates back over 25-years, as well as having founded brands that have won over customers all over the world, this new project, **POPUS Editions**, reflects a taste for a flurry of prints, mixing and matching, and the bright colours of the 60s and 70s. It combines materials and patterns to create a **distinct identity**, shaking up the codes of decoration, all available in an e-shop that is too a place of inspiration.

# Concept

Be daring ! Play with contrasts by choosing **low-profile architecture** and **upbeat and welcoming design pieces**.

# A pop spirit

For the longest time, it has been British culture, **filled with its colours, carefully curated details, and its shimmering patterns**, that has inspired this new adventure. Soft textures, printed wallpapers, slightly offbeat mixes and colourful notes form the basis of the vibrant world we have created. It is the confrontation between **the past** and **modernity**, the refocus on the essential that makes our collection. Our collection provides a ray of optimism, with its **bold colours** that will remind you of treasured memories between family and friends or watching the sunset with a lover. These are the life-moments that Popus wants to share with you.

# Giovanna

### Description

In decoration, it's all about **the details** ! In an interior, it's details that can make all the difference. The beauty of an object or a piece of furniture is often linked to its simplicity. Colour, for example, is the «detail» that is not a detail. It has the power **to change an interior** completely. But this detail can be even smaller than that, it can blend into the design itself. The Giovanna will delight all lovers of this **subtlety**. With a **solid** and **soothing** support, you will appreciate it both in use and in look, where you can see this famous detail which makes all the difference.

Lena

Lena looks straight out of a movie with its generous shapes and big armrests. This sofa invites you to spend long Sundays with the family, stretched out in front of the fireplace. Our influences here come from the creation of living areas, but above all, our love for welcoming spaces was the inspiration for the Lena sofa.

Lena

Description

To be completely honest, The Lena is our favourite Popus sofa since it is also our daughter's name... We think It looks a bit like her! **Generous, relaxed**, for those who love the good things in life, with that je ne sais quoi, that makes you tell it you love it after just one glance. From a more impartial point of view, it suits all environments, and it'll be the easy choice that works for you every time. Signature sunshine in cognac velvet, but beautiful too in a more rock interpretation, with a mottled linen, it's as **luxurious as it is aesthetic. Let the sunshine in...**

# Graziela

One foot obscures another.... A cushion that hides another one... A curve that conceals another... With contemporary lines and a base like a punctuation mark, this sofa is all about simplicity. In a permanent quest for comfort, functionality is not left out. This sofa is synonymous with a delicacy that isn't overdone, a discrete refinement. This sofa will fit right in a bright decor with decor that takes us to another place.

# Graziella

### Description

Wide, with a high back and several soft cushions, **The Graziella** dares to be original. This friendly design both welcomes people and oozes style. The cushions are found in ribbons on a seat where we like to lounge and laze. **This sofa is a mosaic of details, the product of careful finishing and aesthetic research.** A key piece in the Popus collection, **the Graziella sofa**, had to be completed with a carefully chosen fabric. This is one for the colour aficionados. The more timid, will turn to a single colour, just as shimmering or warm colours always in the spotlight. Captured by wanderlust and, at the same time, attached to a deep desire for refuge, it was realized to answer all these expectations. Here it is a **whimsical touch** that is inspired by distant landscapes. Let Comporta, Santa Fe or Formentera enter your home. **The colours are sunny**, the patterns evocative of **other horizons**. Like a desire for idleness, to discover without leaving home and create a bubble of happiness.

# Veronica

Veronica portrays a thousand different emotions. Play with customisation in order to personalise this piece ad infinitum, with its design that is suited to exactly that. An injection of cheerfulness, this is the armchair that is sure to awaken and enthuse.

## Description

Veronica was inspired by **nature, the stones in Southern California**, which protect and embellish the edges of sweeping beaches. We took inspiration from the flat stones, made soft as they were sculpted by the wind and water. As with a sculpture, the inspiration was immediate, **resulting in a carefully balanced shape and contours**. Its backrest is slightly tilted towards the rear. This detail was designed to provide **exceptional comfort**, a feeling of lightness as if suspended above the ground.

In the **seventies**, an inspiring and carefree time, we all wanted to get rid of the cursed bra, but never the famous cape, iconic as it is. A memory of a **comfortable** piece, like a refuge delicately draped around oneself, was a real starting point for the creation of this armchair. We want you to be comfortable in your clothes and at home! **Enveloping and cosy**, the armchair will be transformed according to the materials that you choose, for example with the expressiveness that comes from this magnificent and spectacular jacquard, the product of a great French publisher. # Ludmila Round

Ludmila Round is a pouf with a simple purity of shape, and whichever way you customise it will give it a homely feel. You'll have great fun mixing and matching styles with this piece. The rounded Ludmila exhibits a unique elegance, characterised by its mix of minimalism and raw curves.

## Description

The rounded Ludmila will suit all those who love **colourful and warm** interiors, those who love muted colours as well as those who are fans of a minimalist, Danish style. **This inspiration from African, Indian and Asian** culture evokes an indigenous atmosphere, with a focus on natural materials and warm earthy colours. This is why our choice of fabric here was an obvious one, as we play on the reality from which our inspiration came. We have produced a **more traditional, tribal version**, that can work in any space in your home. You'll see evocations of the savannah, the fauna and flora, that all bring this pouf that little bit closer to nature, and play wonderfully with **colourful notes and other patterns**.

Here comes flower power! Clarita is a real maze of hand-painted flowers, the petals offer a wonderful sensory experience. We've mixed floral inspiration and 70's motifs, to bring you a modern interpretation of the British spirit that characterises us.

## Clarita

### Description

The inspiration for a creation can hail from many different horizons, such as a piece of literature, a piece of art, a trip... For Clarita, it is of course life on the other side of the Channel, **where floral inspiration is deep in the country's roots.** Feeling the cycles of nature repeat themselves is essential. Particular cycles of interest to us are those of **flowers**, the best representation of this rebirth of nature, and of life, through **their colours, aromas and textures.** It is with this in mind that we imagined Clarita, with petals placed on a table, our own interpretation of the elements. We could think of nothing better than a painter's brush to realise this vision, and to give a full sense of the eternal life of a bouquet that never fades.

We created a very modern decorative object in praise of the science of calculation, and soon imagined a lacquered wooden light fixture with a very seventies shape.

# Aliya

Aliya has a flowery print like a pretty dress or like a... taârija. It is indeed this little tam tam that inspired the creation of this lamp. A band of hand-painted flowers on an authentic ceramic, this lamp is more than a simple light, it carries with it a true universal message of softness.

# Aliya

## Description

«Flowers for spring, groundbreaking!» Miranda definitely wouldn't think the same now. Flowers have always been associated with femininity because of their **delicacy**, and are a recurring theme in decoration. It is said that flowers are beautiful precisely because they are ephemeral, but this is not the case with **Aliya**. Its colours, applied to a raw and noble material such as ceramic, will take over your interior with an **authentic** spirit and a resolutely **poetic** note. It is a real favourite that will celebrate these almost graphic flat tints. To fall for ceramics is also to take the time to carefully choose a beautiful, unique and durable piece, which respects the craftsman who makes it and the environment. We cherish this return to the original sources and to the essential.

## Tableware Flower

Flower power ! A mess of flowers, delicate and sparkling, they decorate this tableware with refinement and whet our appetites, they are so pretty. A mix of vegetal inspiration and 1970s motifs, this first Popus tableware collection will bring in a modern version of a British spirit that characterizes us.

# Tableware Flower

### Description

As with Clarita, life across the Channel, where floral inspiration runs rampant in an ancestral way, inspired this collection. These old-fashioned decorations with a **British feel** emulate a deliciously charming taste, mixed with our artisan terracotta. We resurrected a **nostalgic trend** with these **raw materials** that reminded us of **our passion for ceramics and its authenticity**. This colourful tableware invites us to our tables with shapes evocative of **craftsmanship**, but with a more contemporary look. We love the delicate flowers and the evanescent colours.

## Emy Vase

Our love of sculpture has often led us to contemplate pedestals. It is a beautiful thing to start off a creation, a bit like putting a diadem around the work. And from a vase base emerge textured grooves where the hand of man has perpetuated an age-old art.

### Description

Seen all around us in design magazines and on social media, ceramic has become a material that invites us to be **thoughtful**, and to cross temporal boundaries in order to find ourselves in front of pieces borne from **the hands of expert artisans**. These gestures, repeated over time, go hand in hand with this notion of patience, especially important in a world where immediacy reigns supreme. Let's bring a breath of fresh air to this ancestral art, by associating it with a line of **atypical and feminine accessories**. This vase represents **human and artistic** experience orchestrated around authentic objects, with subtle variations that are the hallmark of the **uniqueness and handcrafted nature**.
