

Furniture & Lighting

- **Bold Vintage:** The pandemic has triggered a surge of interest in **all things vintage**, and accordingly, collections are tapping into this comforting mood with diverse references to 60s and 70s styling. Bold textiles and surface patterns are front and centre – with bright florals offering a fun pop of colour, stripes and geometric prints serving more subdued interiors, and high-pile designs reviving the 70s shag rug. This playful trend also introduces gaming arcades as a novel source of inspiration for interiors, with Paris's **Hervet Manufacturier** presenting a two-in-one speaker and gaming device.
